Present Appointment

Professor and Director
Greater Green Triangle
University Department of Rural Health
Flinders and Deakin Universities
WARRNAMBOOL VIC 3280

The Greater Green Triangle (GGT) region, incorporates south east South Australia, the Wimmera Mallee and south western Victoria, with a current population estimated at 225,000. It runs from Apollo Bay to Warracknabeal then west to Keith and the Coorong.

The mission of the Department is:

“To create a ‘Network for Excellence’ in health professional education, population health services, research and clinical service throughout the Greater Green Triangle (GGT) region.”

Aims & Strategies of the Department

1. Increase and improve rural experiences, including training to encourage cultural awareness and sensitivity to Indigenous health issues, for undergraduate students in the health professions.
2. Expand educational opportunities relevant to rural and remote practice, in particular in relation to existing rural and remote health professionals and Indigenous students.
3. Undertake research into rural and remote health issues, including publication of papers and reports and applying for research grants and consultancies.
4. Provide training and support for rural health professionals (including mentor, supervisors and preceptors), consumers and communities.
5. Contribute to innovation in education, research and service development through collaborations with universities, health services and professional and community organisations.
6. Embrace a strong public or population health focus; and contribute to the development of innovative service delivery models in rural and remote health.
7. Endeavour to progress the rural health agenda within the medical faculty and with other university departments to maximise the efficient use of resources provided for a range of rural health programs. These programs include, but are not limited to, the Rural Undergraduate Support and Coordination program and the Rural Clinical Schools program.
